

# Snapchat Snap Maps!

Highlighting your location  
could be very dangerous!

## Is Snapchat Snap Maps safe?

Snapchat Snap Maps could be very dangerous if:

- Location sharing is on
- Someone is sharing their location publicly
- The person sharing their location is friends with all sorts of random strangers or acquaintances

Ghost  
mode!

# Top Tips

Highlighting your location could be very dangerous!

## Top tips for location sharing are:

- Only share your location with people you know in person. Never share your location with strangers.
- **Don't add contacts to Snapchat if you don't know them in person.**
- Regularly review your settings and take an active decision about whether you want people to know your location. Remember you can switch this off at any time. *Think about* where you're sharing your location. Location services such as Snap Maps can lead people to your house. *Think about* what times you're on the app and whether these are locations you want to share – if not, then turn this off within your settings.

**We strongly recommend Ghost mode**
